---------------------------------	--------------------------------------	-----------------------------	------------------------------------

Assessment Categories

Classification of findings based on safety impact level

CATEGORY	SAFETY IMPACT	EXAMPLES
A	None - fully compliant	No issues found
B	Minor - no direct safety impact	Missing signage, minor wear, faded markings, incomplete non-hazardous equipment
C	Medium - potential injury risk	Protruding bolts, incorrect clearances, surface depth issues, equipment gaps, corrosion
D	High - serious injury risk	Entrapment hazards, unsafe connections, visible structural decay, broken safety features

Important: A positive safety opinion is NOT issued if any Category C or D findings are present. All C and D issues must be resolved before the site can be certified as safe.

EQUIPMENT

Equipment List

#	CRITERIA	CAT.	FINDINGS
1	Signage / regulations	Signage	Signage Notes
2	Surface condition	Surface Condition	Surface Notes
3	Clearances	Clearances	Clearances Notes
4	Equipment stability	Stability	Stability Notes
5	Equipment completeness	Completeness	Completeness Notes
6	Mechanical damage	Mechanical Damage	Mechanical Notes
7	Connections / joints	Connections	Connections Notes
8	Wood condition	Wood Condition	Wood Notes
9	Corrosion	Corrosion	Corrosion Notes
10	Sharp edges / rough surfaces	Sharp Edges	Sharp Edges Notes
